To Whom It May Concern:

We were very lucky to have FAST TIMES '80s Music Times perform at *The Improper Bostonian's* '80s Party at Hurricane O'Reilly's held June 24th, 2004. Their performance added to the event immensely, in fact they made the event! Not only was the crowd of about 250 people entertained, but dancing and laughing all night long. Many people in the front of the venue thought we had a CD playing. They were impressed that it was a live band because they sounded so good and authentic. They were true professionals! They had a large play list and great energy that kept everyone smiling from ear to ear. Our clients were also very pleased with FAST TIMES and the event was a success! I would recommend them for any performances large or small, I am sure they would never disappoint.

Thank You!
